Patients' rights

- The right to receive treatment with courtesy and dignity without any discrimination based on caste, religion, gender, or economic status.
- The right to be clearly informed about the diagnosis, tests, treatment options, risks, and costs.
- The right to give or refuse informed consent to surgeries and major treatments.
- The patient's personal information and medical records must be kept confidential.
- The right to seek a second medical opinion. There should be no obstacles to seeking an opinion from another doctor.
- The right to receive copies of examination reports, discharge summaries, and bills.
- Safe and quality treatment in approved facilities by trained staff.
- The right to refuse treatment that the patient does not want (within legal limits).
- In life-threatening situations, treatment should not be denied on financial grounds. The right to receive emergency treatment.
- The right to file a complaint if dissatisfied with hospital services and receive a response.
- The patient or his relatives should not be neglected or humiliated. The right to be free from mental and physical abuse.

Patient cooperation and adherence to hospital rules are essential for good treatment.
